Introduction.....

Watch

Wear, Feel, Tap and Experience it.

- If you raise your hand with the screen facing towards you while you are in a standing/sitting position, the screen will light up and the current time will display.
- Tracks your daily movements and monitors your sleep.
- Control Music player and Camera without taking out your phone.
- Measures your heart rate while exercising or resting.

Onetouch Fit

Onetouch Fit helps you to pair Watch with your phone, review the activity dashboard, set goals, etc. (Page 18)

Supported phones/systems

Watch is compatible with:

- Android 4.3 and above
- iOS7, iPhone 4s and above

You can download this APP in any of the following ways:

- Search for "**Onetouch Fit**" in Google play store. (For Android)
- Search for "**Onetouch Fit**" in Apple Store. (For IOS)
- Scan the following QR code:

Bluetooth

Watch pairs with phone devices supporting Bluetooth 4.0 LE.

Supported phones(1):

- iPhone4s
- iPhone5
- iPhone5s
- iPhone6
- iPhone6 Plus
- LG G3
- LG Nexus5
- Samsung S5
- Samsung Note3
- SONY Xperia Z3
- HTC one Max
- HTC one M8
- Moto-G
- Moto X
- HUAWEI P7
- ALCATEL ONETOUCH POP S7
- ALCATEL ONETOUCH HERO2
- ALCATEL ONETOUCH HERO2C
- ALCATEL ONETOUCH Hero8
- ALCATEL ONETOUCH PIXI 8
- ALCATEL ONETOUCH PIXI 7
- ALCATEL ONETOUCH POP D5
- ALCATEL ONETOUCH Pop Astro

(1) More phones will be supported in the future.

www.sar-tick.com

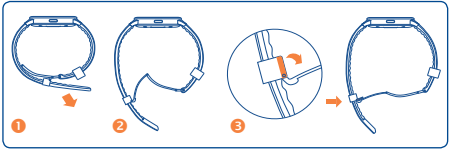
This product meets applicable national SAR limits of 2.0W/kg. The specific maximum SAR values can be found on page XX of this user guide.

When carrying the product or using it while worn on your body, either use an approved accessory such as a holster or otherwise maintain a distance of XX mm from the body to ensure compliance with RF exposure requirements. Note that the product may be transmitting even if you are not making a phone call.

Your Watch.....

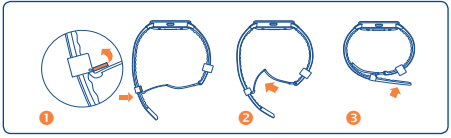
1.1 Wearing

Open



Take out your watchband from the ring sleeve and open the buckle.

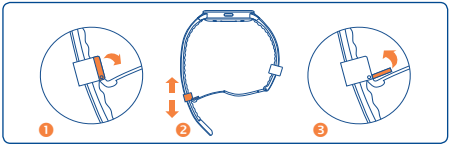
Wear



- Put it around your wrist and cross the watchband through the buckle.
- Adjust the watchband size to fit your wrist.
- Press the buckle until it clicks.
- Cross the watchband through the ring sleeve to fix your Watch.

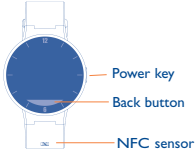
Smartband 2_GB_UM_20150215.indd 8-9 2/15/2015 3:49:23 PM

Watchband adjustment



Open the buckle and adjust the watchband size to fit your wrist.

1.2 Keys and sensor



Power key

- Press: Turn on/off screen.
- Press and hold: Power on/off Watch. Press and hold for 10 seconds to restart Watch.

Back button

- Tap to go back to the previous screen.
- Tap to dismiss notifications.

NFC sensor

Put it close to the NFC antenna part of your phone to quickly pair Watch with your phone.

Smartband 2_GB_UM_20150215.indd 10-11 2/15/2015 3:49:23 PM

1.3 Vibration reminding

Your Watch vibrates to remind you of:

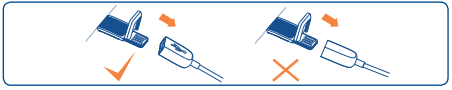
- Notifications
- Call, alarm, calendar, event, etc.
- Low battery
- Disconnection with your phone

1.4 USB charging

Open the USB port cover at the end of the watchband. Connect your Watch with a computer to charge via USB. Make sure that the chip on Watch is correctly inserted. Otherwise, it won't charge.

The following instructs you to correctly charge Watch.

The left picture shows the correct insertion and the right one shows the incorrect charging.



1.5 Power on your Watch

Hold down the **Power** key until Watch powers on. It will take a few seconds before the screen lights up.

1.6 Power off your Watch

You can power off your Watch in the following two ways:

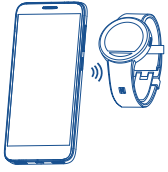
- Hold down the **Power** key. Swipe icon right or left to power off your Watch. Touch **Back** button to cancel power-off operation.
- Keep holding down the **Power** key for around 8 seconds.

Smartband 2_GB_UM_20150215.indd 12-13 2/15/2015 3:49:27 PM

2 Pairing.....

2.1 NFC pairing

If your phone supports NFC and Onetouch Fit is installed, you can quickly pair your phone with Watch by using NFC.



Find the logo and put it close to the NFC antenna part in your phone.

2.2 Bluetooth Pairing

For IOS

- Start Onetouch Fit and touch **Watch** at the bottom of the screen.
- Touch **Connect Watch** and turn on Bluetooth on your phone.

- Select your Watch in **Available devices** list, touch it to connect.
- The first time, you need to confirm pairing on your Watch. Swipe icon left on your Watch to confirm pairing. Swipe icon right to reject pairing.

Smartband 2_GB_UM_20150215.indd 14-15 2/15/2015 3:49:29 PM

For Android

- Start Onetouch Fit. Touch icon

Touch it to show menu list

- Select **Watch/Connect Watch**.
- Turn on Bluetooth on your phone.
- Select Watch in **Available devices** list, touch it to connect.

1. Keep your Watch's screen on if your phone cannot detect any Bluetooth device. Your Watch's Bluetooth will be disabled for power saving if it has not paired with any device a long time after its screen is off.

2. Watch can be connected only through the Bluetooth searching in Onetouch Fit.

3 Screen .....

Home screen **Main menu screen**

Tap on watch face to access main menu screen.

The screen is provided in an extended format. You can swipe left/ right to view the extended screen.

Tap **Back** button to access Home screen.

Smartband 2_GB_UM_20150215.indd 16-17 2/15/2015 3:49:29 PM

3.1 Using the touch screen

Touch

To access, select an application or confirm an action, touch it with your finger.

Swipe left/right

Swipe left/right the applications, images, life modes and etc. at your convenience.

Slide

Slide up the screen to open notifications.

4 Notifications.....

4.1 Icons

Notification/Status icons

	Phone is disconnected		Missed call(s)
	Battery is low (in red)		Unread message(s)
	Battery is full		Unread email(s)
	Battery is charging (in blue)		Sleep tracker is active
	Mute is on		Stopwatch is active
	Airplane mode is on		Workout tracker is active

Smartband 2_GB_UM_20150215.indd 18-19 2/15/2015 3:49:32 PM

4.2 Notifications(1)

When there are notifications, touch and drag up to open the Notification panel and read the detailed information(2).

Incoming call	Informs you when the phone gets an incoming call. You can reject or mute the incoming call from Watch.
Message(3)	Shows you the content of an incoming message. Notification can be dismissed from Watch.
Calendar reminder	Reminds you of upcoming events.
Alarm	When the time of your alarm set in Onetouch Fit comes, your Watch will vibrate and you can dismiss it.
Heart rate alert(4)	If your heart rate is outside the normal range, it will alert you. Notification or alert can be dismissed.

(1) Make sure Watch is connected with your phone.
(2) Watch will gently vibrate when there is an incoming notification.
(3) Supports SMS and SNS.
(4) TCL Communication Ltd. shall not be liable in the event of inaccuracy of your heart rate or failure to provide the heart rate.

5 Applications.....

	Weather(1) forecasts the weather for the next 12 hours and for the next 4 days. Current temperature is displayed in the bottom left of the screen. You can Swipe right to see the weather forecast for the next day.
	Life records all of your activities. You can view detailed data of different modes such as Steps, Calories, Distance, Sleep, etc.
	Heart rate measures your heart rate. Touch the heart-shaped icon to measure in several seconds. Note that your Watch must have proper contact with your wrist to ensure data correctness.

To make sure your heart rate test is accurate, Watch should be tightened firmly on your wrist. Otherwise, the test result can be abnormal.

(1) The weather information is provided by AccuWeather. For details about the APP, go to www.accuweather.com.

Smartband 2_GB_UM_20150215.indd 20-21 2/15/2015 3:49:32 PM

	Workout tracks your workout activities. You can specify some periods of your workout by lap and swipe the screen to view detailed information (such as the steps you made, distance you moved, and your heart rate) for each lap.
	Stopwatch measures the amount of elapsed time
	Music(1) can help play the previous/next and stop songs on your phone. You can also adjust sound volume by making circles on the screen with your finger.
	Compass obtains geographic and altitude information. The altitude information will be more accurate if you are outdoor or in an open space. Conversely, the altitude may have deviation if the weather or atmospheric pressure sharply changes, or you are in a closed space such as an air-conditioned room or a cabin.

(1) Make sure Watch is connected with your phone.

	Camera(1)(2) controls the Camera in your phone to take a picture. Touch the icon on your Watch to turn on **Camera** and touch to take a picture. Images will be saved in the Gallery of your phone.
	Watch face personalises your watch face. You can swipe left/ right to select a watch face type.
	Search phone helps you to find your phone. Touch it and then your phone sounds or vibrtes if Watch is connected to your phone.
	Mute enables/disables vibration mode of your Watch. When **Mute** is on, notifications can still be received but you won't be reminded by vibration.

(1) Make sure Watch is connected with your phone.
(2) Make sure your phone is unlocked.

Smartband 2_GB_UM_20150215.indd 22-23 2/15/2015 3:49:33 PM

	Airplane mode disconnects Watch from your phone. You can touch this icon to turn airplane mode on/off.
	Brightness personalises brightness of your Watch. You can touch this icon to adjust brightness.
	Theme personalises theme of your Watch. You can touch this icon to select a theme.

6 Onetouch Fit.....

Onetouch Fit helps you to pair Watch with your phone, review the activity dashboard, set goals, etc.

You need to log in and fill your information the first time. You can set your account by:

- Creating an account on Onetouch Fit login page directly.
- Using other social APP accounts (such as Google accounts) to log in.

Your account can be used on ALCATEL ONETOUCH Fitness website http://watch.alcatelonetouch.com.

Smartband 2_GB_UM_20150215.indd 24-25 2/15/2015 3:49:33 PM

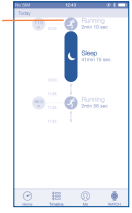
6.2 Timeline

Shows detailed information about a period of activity.

Touch to view detailed information of this period of activity



6.3 Me

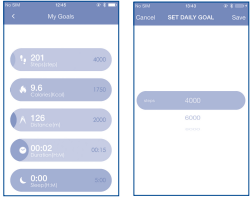
Profile	Touch to update your photo or personal information such as name, gender, height, weight, and age.
Account	Shows your account information and helps you change your password.
My goals	Touch to set your goals for each category.
Synchronization	You can choose whether your data is automatically synchronized to cloud, or only when Wi-Fi is connected.
Rate Onetouch Fit	Touch to rate this APP.
Help	Touch to view more information about your Watch, Onetouch Fit, and supported phones.

Smartband 2_GB_UM_20150215.indd 28-29 2/15/2015 3:49:36 PM

6.4 Setting goals

Touch **Me\My goals.** all the categories are listed.

Select one to set your goal, and then touch **Save**.



6.5 Watch

Alarm	Touch to set alarms that will make Watch vibrate.
Wallpaper	Touch **Wallpaper\Change wallpaper** to customize your Watch face background with predefined wallpapers, solid colours, or your own images stored in phone.
Notifications	Select some APPs so that notifications from these APPs will be displayed on your Watch.

6.6 Upgrade

Watch software upgrade

If a new software version is available, a message is prompted when you start Onetouch Fit for the first time every day. You can also touch **Watch\Settings** to check for an update.

Onetouch Fit upgrade

If a new software version is available, a message is prompted when you start Onetouch Fit for the first time every day. You can also touch **Me\Onetouch Fit Version** to check for an update.

Smartband 2_GB_UM_20150215.indd 30-31 2/15/2015 3:49:37 PM

6.7 Settings

Calendar events	Select to make Watch remind you of calendar events.
Anti-loss alert	If this function is enabled and you are far from phone, your Watch will vibrate.
Screen timeout	Touch to select the duration after which your Watch's screen will turn off automatically.
Language	Touch to select the language in your Watch.
Help	Touch to view more information about your Watch, Onetouch Fit, and supported phones.
Firmware	Displays the Watch's software version.
Factory reset	Touch to reset all settings. All your data will be deleted.
Disconnect current Watch	Touch to disconnect the current Watch to allow your phone to connect to a new watch.

Safety and use

We recommend that you read this chapter carefully before using your device. The manufacturer disclaims any liability for damage, which may result as a consequence of improper use or use contrary to the instructions contained herein.

• **TRAFFIC SAFETY:**

Given that studies show that using a device while driving a vehicle constitutes a real risk, even when the hands-free kit is used (car kit, headset...), drivers are requested to refrain from using their device when the vehicle is not parked.

When driving, do not use your device and headphone to listen to music. Using a headphone can be dangerous and forbidden in some areas.

When switched on, your device emits electromagnetic waves that can interfere with the vehicle's electronic systems such as ABS anti-lock brakes or airbags. To ensure that there is no problem:

- do not place your device on top of the dashboard or within an airbag deployment area,
- check with your car dealer or the car manufacturer to make sure that the dashboard is adequately shielded from RF energy.

Smartband 2_GB_UM_20150215.indd 32-33 2/15/2015 3:49:37 PM

• **CONDITIONS OF USE:**

You are advised to switch off the device from time to time to optimise its performance.

Switch the device off before boarding an aircraft.

Switch the device off when you are in health care facilities, except in designated areas. As with many other types of equipment now in regular use, mobile devices can interfere with other electrical or electronic devices, or equipment using radio frequency.

Switch the device off when you are near gas or flammable liquids. Strictly obey all signs and instructions posted in a fuel depot, petrol station, or chemical plant, or in any potentially explosive atmosphere.

When the device is switched on, it should be kept at least 15 cm from any medical device such as a pacemaker, a hearing aid or insulin pump, etc. In particular when using the device, you should hold it against the ear on the opposite side to the device, if any.

Do not let children use the device and/or play with the device and accessories without supervision.

Please note that your device is a unibody device, the battery is not removable. Do not attempt to disassemble your device. If you disassemble your device the warranty will not apply. Also disassembling the device may damage the battery, and may cause leakage of substances that could create an allergic reaction.

Always handle your device with care and keep it in a clean and dust-free place.

Do not allow your device to be exposed to adverse weather or environmental conditions (moisture, humidity, rain, infiltration of liquids, dust, sea air, etc). The manufacturer's recommended operating temperature range is -10°C to +55°C.

At over 55°C the legibility of the device's display may be impaired, though this is temporary and not serious.

Do not open, dismantle or attempt to repair your device yourself.

Do not drop, throw or bend your device.

Do not use the device if the glass made screen, is damaged, cracked or broken to avoid any injury.

Do not paint it.

Use only batteries, battery chargers, and accessories which are recommended by TCL Communication Ltd. and its affiliates and are compatible with your device model. TCL Communication Ltd. and its affiliates disclaim any liability for damage caused by the use of other chargers or batteries.

Pay attention to any warnings.

Do not attempt to open or disassemble Watch. Under inappropriate operation, the product and battery can be damaged and be hazardous to the human body and the environment.

Do not clean Watch with corrosive cleaning products.

Do not place Watch in dishwashers, washing machines or dryers.

Smartband 2_GB_UM_20150215.indd 34-35 2/15/2015 3:49:37 PM

Do not place Watch on or in heating devices, such as microwave ovens, stoves, or radiators.

Do not expose Watch to extreme temperatures. The recommended temperature ranges from -20°C to 60°C.

Do not place Watch close to fire.

Do not dispose of Watch in a fire. This may cause the device to explode.

Your Watch is an IP67 device. Therefore, You don't have to take off Watch when you wash your hands or face, but remember to dry your Watch if any water gets on it while it is raining, you are cleaning etc. You are not recommended to swim or take showers with your Watch.

Prevent the USB connector from contacting water to avoid rust.

Do not crush, drop, or puncture your Watch.

Do not store NFC tag with magnetic devices to keep good performance.

Never allow children to play with Watch. Small components may present a choking hazard to children.

You are not recommended to wear WATCH on the frequently-used hand.

Some people may suffer epileptic seizures or blackouts when exposed to flashing lights, or when playing video games. These seizures or blackouts may occur even if a person never had a previous seizure or blackout. If you have experienced seizures or blackouts, or if you have a family history of such occurrences, please consult your doctor before playing video games on your device or enabling a flashing-lights feature on your device.

Parents should monitor their children's use of video games or other features that incorporate flashing lights on the devices. All persons should discontinue use and consult a doctor if any of the following symptoms occur: convulsion, eye or muscle twitching, loss of awareness, involuntary movements, or disorientation. To limit the likelihood of such symptoms, please take the following safety precautions:

- Do not play or use a flashing-lights feature if you are tired or need sleep.
- Take a minimum of a 15-minute break hourly.
- Play in a room in which all lights are on.
- Play at the farthest distance possible from the screen.
- If your hands, wrists, or arms become tired or sore while playing, stop and rest for several hours before playing again.
- If you continue to have sore hands, wrists, or arms during or after playing, stop the game and see a doctor.

Smartband 2_GB_UM_20150215.indd 36-37 2/15/2015 3:49:37 PM

When you play games on your device, you may experience occasional discomfort in your hands, arms, shoulders, neck, or other parts of your body. Follow the instructions to avoid problems such as tendinitis, carpal tunnel syndrome, or other musculoskeletal disorders.

- **ALLERGENS:**

TCL Communication Ltd. avoids using known allergens in our products. From time to time, trace amounts of an allergen may be added during manufacture of a device or device component that could cause discomfort for some individuals. This approach is common for many types of products. We recommend that you monitor any products that may be in prolonged contact with your skin, and remove them if you experience skin irritation.

- **HEART RATE ALERT**

TCL Communication Ltd. shall not be liable in the event of inaccuracy of your heart rate or failure to provide the heart rate.

- **EXERCISE**

Pedometer, Sleep, Workout, and Heart Rate are intended for leisure, well-being and fitness purposes only and are not intended for medical use. Before using these applications, read the instructions carefully. Consult a medical professional if you experience any health problems or need medical assistance.

Heart rate monitor

The heart rate figures may not be accurate depending on measurement conditions and surroundings.

- Take heart rate measurements when you are seated and relaxed.
- If heart rate measurements are taken at low temperatures, the result may be inaccurate.
- Do not move your body while taking heart rate measurements. Doing so may cause your heart rate to be recorded inaccurately.
- Users with thin wrists may receive inaccurate heart rate measurements.
- Inaccurate measurements occur when the device is loose and the light used to provide the measurement is reflected unevenly.
- If the measurement is very different from the expected heart rate, rest for 30 minutes and then measure it again.

Smartband 2_GB_UM_20150215.indd 38-39 2/15/2015 3:49:37 PM

- Measurements are calculated using average values and should be repeated at least five times.
- During winter or in cold weather, keep yourself warm when measuring your heart rate.
- Smoking or consuming alcohol before taking measurements may cause your heart rate to be different from your normal heart rate.
- Do not talk, yawn, or breathe deeply while taking heart rate measurements. Doing so may cause your heart rate to be recorded inaccurately.
- If your heart rate is extremely high or low, measurements may be inaccurate.
- Heart rate measurements taken for infants and toddlers may be inaccurate.
- Do not look directly at the heart rate sensor's lights. Doing so may impair your vision.

If heart rate measurement is not working properly, adjust the position of Watch on your wrist. For example, move Watch right, left, up, or down on your wrist to adjust the position of the heart measurement sensor. Or, wear Watch with the heart rate sensor firmly against the inside of your wrist.

- If the heart rate sensor is dirty, wipe the sensor and try again.

Before You Start Exercising

This app can be used to monitor your . While moderate physical activity, such as brisk walking, is safe for most people, health experts suggest that you talk with your doctor before you start an exercise program, particularly if you have any of the following conditions:

- Heart disease;
- Asthma or lung disease;
- Diabetes, or liver or kidney disease;
- Arthritis.

You should also check with your doctor if you have symptoms suggestive of heart, lung, or other serious disease, such as:

- Pain or discomfort in your chest, neck, jaw, or arms during physical activity;
- Dizziness or loss of consciousness;
- Shortness of breath with mild exertion or at rest, or when lying down or going to bed;
- Ankle swelling, especially at night;
- A heart murmur or a rapid or pronounced heartbeat;

Smartband 2_GB_UM_20150215.indd 40-41 2/15/2015 3:49:37 PM

- Muscle pain when walking upstairs or up a hill that goes away when you rest.

Finally, it is recommended that you see your doctor before engaging in vigorous exercise if two or more of the following apply:

- You are a man older than age 45 or a woman older than age 55;
- You have a family history of heart disease before age 55;
- You smoke or quit smoking in the past six months;
- You have not d for three months or more;
- You are overweight or obese;
- You have high blood pressure or high cholesterol.
- You have impaired glucose tolerance, also called pre-diabetes.

When in Doubt - Check it Out

If you are unsure of your health status, have several health problems, or are pregnant, you should speak with your doctor before starting a new program. Working with your doctor ahead of time is a good way to plan an program that is right and safe for you. Consider it the first step on your path to physical fitness.

- **PRIVACY:**

Please note that you must respect the laws and regulations in force in your jurisdiction or other jurisdiction(s) where you will use your device regarding taking photographs and recording sounds with your device. Pursuant to such laws and regulations, it may be strictly forbidden to take photographs and/or to record the voices of other people or any of their personal attributes, and duplicate or distribute them, as this may be considered to be an invasion of privacy. It is the user's sole responsibility to ensure that prior authorisation be obtained, if necessary, in order to record private or confidential conversations or take a photograph of another person; the manufacturer, the seller or vendor of your device (including the operator) disclaim any liability which may result from the improper use of the device.

Smartband 2_GB_UM_20150215.indd 42-43 2/15/2015 3:49:38 PM

• DATA PRIVACY

Please note by using Watch some of your personal data may be shared with the main device (smartphone). It is under your own responsibility to protect your own personal data, not to share with it with any unauthorized devices or third party devices connected to yours. For products with Wi-Fi features, only connect to trusted Wi-Fi networks. Also when using your product as a hotspot (where available), use network security. These precautions will help prevent unauthorized access to your device. Your product can store personal information in various locations including a SIM card, memory card, and built-in memory. Be sure to remove or clear all personal information before you recycle, return, or give away your product. Choose your apps and updates carefully, and install from trusted sources only. Some apps can impact your product's performance and/or have access to private information including account details, call data, location details and network resources.

Note that any data shared with TCL Communication Ltd. is stored in accordance with applicable data protection legislation. For these purposes TCL Communication Ltd. implements and maintains appropriate technical and organizational measures to protect all personal data, for example against unauthorized or unlawful processing and accidental loss or destruction of or damage to such personal data whereby the measures shall provide a level of security that is appropriate having regard to

(i) the technical possibilities available,

(ii) the costs for implementing the measures,

(iii) the risks involved with the processing of the personal data, and

(iv) the sensitivity of the personal data processed.

You can access, review and edit your personal information at any time by logging into your user account, visiting your user profile or by contacting us directly. Should you require us to edit or delete your personal data, we may ask you to provide us with evidence of your identity before we can act on your request.

• BATTERY:

Please note your device is a unibody device, the battery is not removable. Observe the following precautions:

- Do not attempt to open the back cover,
- Do not attempt to eject, replace and open battery,
- Do not punctuate the back cover of your device,
- Do not burn or dispose of your device in household rubbish or store it at temperature above 60°C.

Device and battery as a unibody device must be disposed of in accordance with locally applicable environmental regulations.

This symbol on your device, the battery and the accessories means that these products must be taken to collection points at the end of their life:

- Municipal waste disposal centres with specific bins for these items of equipment

Smartband 2_GB_UM_20150215.indd 44-45 2/15/2015 3:49:38 PM

- Collection bins at points of sale.

They will then be recycled, preventing substances being disposed of in the environment, so that their components can be reused.

In European Union countries:

These collection points are accessible free of charge.

All products with this sign must be brought to these collection points.

In non European Union jurisdictions:

Items of equipment with this symbol are not to be thrown into ordinary bins if your jurisdiction or your region has suitable recycling and collection facilities; instead they are to be taken to collection points for them to be recycled.

CAUTION: RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE. DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS.

- **CHARGERS**

Mains powered chargers will operate within the temperature range of: 0°C to 40°C.

The chargers designed for your device meet with the standard for safety of information technology equipment and office equipment use. They are also compliant to the ecodesign directive 2009/125/EC. Due to different applicable electrical specifications, a charger you purchased in one jurisdiction may not work in another jurisdiction. They should be used for this purpose only.

- **RADIO WAVES:**

THIS DEVICE MEETS INTERNATIONAL GUIDELINES FOR EXPOSURE TO RADIO WAVES

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves (radio frequency electromagnetic fields) recommended by international guidelines. The guidelines were developed by an independent scientific organization (ICNIRP) and include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The radio wave exposure guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit for mobile devices is 2 W/kg.

Tests for SAR are conducted using standard operating positions with the device transmitting at its highest certified power level in all tested frequency bands. The highest SAR values under the ICNIRP guidelines for this device model are:

Maximum SAR for this model and conditions under which it was recorded.		
Body-worn SAR	XX	XX W/kg

Smartband 2_GB_UM_20150215.indd 46-47 2/15/2015 3:49:38 PM

During use, the actual SAR values for this device are usually well below the values stated above. This is because, for purposes of system efficiency and to minimize interference on the network, the operating power of your mobile device is automatically decreased when full power is not needed for the call. The lower the power output of the device, the lower its SAR value. Body-worn SAR testing has been carried out at a separation distance of XX mm. To meet RF exposure guidelines during body-worn operation, the device should be positioned at least this distance away from the body.
If you are not using an approved accessory ensure that whatever product is used is free of any metal and that it positions the device the indicated distance away from the body.

Organizations such as the World Health Organization and the US Food and Drug Administration have stated that if people are concerned and want to reduce their exposure they could use a hands-free device to keep the device away from the head and body during phone calls, or reduce the amount of time spent on the device.
For more information you can go to www.alcatelonetouch.com
Additional information about electromagnetic fields and public health are available on the following site: http://www.who.int/peh-emf.

Disclaimer

TCL Communication Ltd. WILL NOT BE LIABLE FOR ANY DAMAGES OF ANY KIND ARISING OUT OF OR RELATING TO THE USE OR THE INABILITY TO USE THE SOFTWARE OR ANY THIRD PARTY APPLICATION, ITS CONTENT OR FUNCTIONALITY, INCLUDING BUT NOT LIMITED TO DAMAGES CAUSED BY OR RELATED TO ERRORS, OMISSIONS, INTERRUPTIONS, DEFECTS,DELAY IN OPERATION OR TRANSMISSION, COMPUTER VIRUS, FAILURE TO CONNECT, NETWORK CHARGES, IN-APP PURCHASES, AND ALL OTHER DIRECT, INDIRECT, SPECIAL, INCIDENTAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES EVEN IF TCL Communication Ltd. HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE EXCLUSIONS OR LIMITATIONS MAY NOT APPLY TO YOU. NOTWITHSTANDING THE FOREGOING, TCL Communication Ltd. TOTAL LIABILITY TO YOU FOR ALL LOSSES, DAMAGES, CAUSES OF ACTION, INCLUDING BUT NOT LIMITED TO THOSE BASED ON CONTRACT, TORT, OR OTHERWISE, ARISING OUT OF YOUR USE OF THE SOFTWARE OR THIRD PARTY APPLICATIONS ON THIS MOBILE DEVICE, OR ANY OTHER PROVISION OF THIS EULA, SHALL NOT EXCEED THE AMOUNT PURCHASER PAID SPECIFICALLY FOR THE WAVE OR ANY SUCH THIRD PARTY APPLICATION THAT WAS INCLUDED WITH THIS MOBILE DEVICE.THE FOREGOING LIMITATIONS, EXCLUSIONS, AND DISCLAIMERS SHALL APPLY TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, EVEN IF ANY REMEDY FAILS ITS ESSENTIAL PURPOSE.

There may be certain differences between the user manual description and the phone's operation, depending on the software release of your device or specific operator services.

Childcare

These products are not toys and may be hazardous to small children. Parents shall be responsible and monitor their children's use of video games or other features that incorporate flashing lights on the phones.

Recycling

Please don't dispose of products or electrical accessories (such as chargers, headsets, or batteries) with your household waste. Warning: Never dispose of batteries, either separately or within a mobile device, in a fire because they may explode. These items should be disposed of in accordance with the national collection and recycling schemes operated by your local or regional authority. Or, you may return unwanted ALCATEL ONETOUCH products and electrical accessories to any ALCATEL ONETOUCH Approved Service Center in your region. Packaging and product guides should only be disposed of in accordance with national collection and recycling requirements. Please contact your regional authorities for more details.

Warranty

We aim at "creating value for consumers". In order to better protect consumers' rights, please read through the following points in case of controversy:

Watch is warranted against any defect or malfunctioning which may occur in conditions of normal use during the warranty period of twelve (12) months from the date of purchase as shown on your original invoice. (The warranty period may vary depending on your country.)

Within the warranty span, damages and defects deemed by authorized technical personnel as incurred from normal uses, are subject to free repair service provided by the company and the company is allowed to charge or refuse to repair under the following.

A. Damage caused by accident or abuse.
B. Conducting or allowing unauthorized personnel to conduct tests, repair, or disassembly of the product.
C. Damages caused by usage of or connection to non-official accessories.

Battery

This Limited Warranty covers batteries only if battery capacity falls below 80% of rated capacity or the battery leaks, and this Limited Warranty does not cover any battery if:

(i) The battery has been charged by a battery charger not specified or approved by TCL Communication Ltd. for charging the battery;

(ii) Any of the seals on the battery are broken or show evidence of tampering; or

(iii) The battery has been used in equipment other than the watch for which it is specified.

Software

- Software Embodied in Physical Media.

No warranty is made that the software will meet your requirements or will work in combination with any hardware or software applications provided by third parties, that the operation of the software products will be uninterrupted or error free, or that all defects in the software products will be corrected.

- Software NOT Embodied in Physical Media.

Software that is not embodied in physical media (e.g. software that is downloaded from the Internet), is provided "as is" and without warranty.

Troubleshooting

Please refer to the instructions below before contacting our aftersales service:

Your Watch cannot be detected.

- Press the **Power** key to light up the screen. Your Watch can be detected for only 3 minutes after the screen is off.
- Turn on Bluetooth if it is disabled.
- Enable the Bluetooth service to search for devices.

Your Watch fails to pair with your phone or the pairing is slow.

- Press the **Power** key to light up the screen. Your Watch can be detected for only 3 minutes after the screen is off.
- Make sure the communication between your Watch and phone is normal.

Your Watch often disconnects from your phone.

- The background Onetouch Fit Service is killed. Restart the APP.
- Make sure the communication between your Watch and phone is normal.

When there are other devices connected to your phone:

- It is normal if the rate of transferring files using Bluetooth decreases.
- It is normal if the Wi-Fi speed slows down. Note that the Wi-Fi speed will be severely affected for some phones with defects.

How many BT 4.0 Low Energy (BLE) devices can be connected to the phone at most?

5 BLE devices can be connected to the phone at the same time.

After Onetouch Fit is installed and Watch is connected to your phone, the battery consumption speed of your phone increases.

This is normal and the consumption includes:

- Connection keeping between your Watch and phone
- File transfer between your Watch and phone
- Disconnection, device scanning, and re-connection

Your Watch fails to be charged.

- Make sure the USB connector of your Watch is correctly inserted into the computer. (The chip on the USB connector must contact that of the computer.)
- Make sure your Watch is tightly inserted into the USB port.

Vibration does not work.

- Charge and confirm that the battery works.
- Make sure the connection between your Watch and phone is not interrupted.

Smartband 2_GB_UM_20150215.indd 58-59 2/15/2015 3:49:39 PM

Watch vibrates unexpectedly.

- Check whether you have a notification.
- Make sure your Watch is not far away from your phone.

Your Watch does not respond.

Press and hold the **Power** key for 10 seconds to restart Watch. This is only for emergency.

Factory reset

If the instructions above fail to solve the problem, try to reset your Watch.

In Onetouch Fit, touch , then touch **Watch\Settings\Factory reset** to reset your Watch.
